

Dynamic Conclusion Table

	2022	2023	2024	2025
Digitalisation and Innovation				
8a) Appraise existing work which promotes wider adoption of Global Data Standards for food and agriculture products and other interoperable digital technologies Lead Economy: Multi Leads	ATC 01 2021A: APEC Workshop on the Application of Electronic Veterinary and Phytosanitary Certificate (CT)	ATC 01 2021A: Publish a Project Report on APEC Workshop on the Application of Electronic Veterinary and Phytosanitary Certificate (CT)		
8b) Identify and actively encourage government schemes which provide access to and promote introduction of innovative products and technologies Lead Economy: Korea	Webinar on digital innovation of APEC Food System in 4Q (Korea).	Korea will design relevant webinar/workshop for the successful implantation of 8b).	Korea will design relevant webinar/workshop for the successful implantation of 8b).	Korea will design relevant webinar/workshop for the successful implantation of 8b).
8c) Promote and encourage increased levels of access to broadband digital infrastructure in underserved areas through necessary investment and structural reforms Lead Economy: PPFS WG 2		ATC 01 2022S: Seminar on Promoting Rural Development and Prosperity for All Our People in APEC Region (PRC)		
8d) Make available and deliver training sessions and/or workshops to improve food system related digital literacy and capability for underserved communities, leveraging existing programmes	PPFS 03 2022S: APEC Webinar on Food Security “Promoting Smart Agriculture in APEC Community” (MAS)			

	2022	2023	2024	2025
Lead Economy: Malaysia				
8e) Voluntarily share information and best practice on digitalisation and innovation in the food supply chain via the APIP database				
Lead Economy: Japan				
8f) Promote public-private investment to facilitate the use of innovative technologies for the whole food value chain	Virtual Workshop on Agricultural Technological Cooperation for Improving Green Agriculture and Food Productivity (PRC)			
Lead Economy: China				
8g) Modernise food storage facilities and logistics capacity	APEC Webinar on Modernization of Food Storage Facilities and Logistics Capacity (PRC)			
Lead Economy: China				
Productivity				
12a) explore the implementation of best examples of systems which see perishable goods released through international borders in a timely manner				
Lead economy: New Zealand				
12b) Acknowledging the positive impact on food security of consistency in food trade standards				
Lead economy: China				
12c) Design and implement non-tariff measures relating to food.				

	2022	2023	2024	2025
Lead economy: -				
12 d) Commission a review of progress in the food system against the Bogor Goals.				
Lead economy: The United States				
12e) Identify strategies for boosting productivity in MSMEs and small-scale producers in the agri-food and fisheries sectors	PRC: Virtual Workshop on Agricultural Technological Cooperation for Improving Green Agriculture and Food Productivity			
Lead economy: -Vietnam				
12f) Work closely with private sector actors in the food system to identify policy barriers which impede progress on hunger and malnutrition.	PRC: Virtual Workshop on Agricultural Technological Cooperation for Improving Green Agriculture and Food Productivity			
Lead economy: -Vietnam				
Inclusivity				
14a) Implementation of the La Serena Roadmap for Women and Inclusive Growth (2019-2030) in PPFS work.		PRC: Seminar on Promoting Rural Development and Prosperity for All Our People in APEC Region		
Lead economy:				
14b) share knowledge and experiences and make recommendations to PPFS on how APEC can unlock the economic potential of diverse groups of people, including Indigenous peoples, within the APEC food system		PRC: Seminar on Promoting Rural Development and Prosperity for All Our People in APEC Region		
Lead economy: New Zealand				

	2022	2023	2024	2025
14c) Provide dialogue opportunities to improve economy knowledge of obstacles inhibiting youth participation in the food system. Lead economy: The United States	The United States is currently working on strategies to continue its work on facilitating youth in agriculture (US)	PRC: Seminar on Promoting Rural Development and Prosperity for All Our People in APEC Region		
14d) Promote greater agri-food financial inclusion on lending schemes for business establishment and development. Lead economy: -				
Sustainability				
17a) Facilitate information sharing and utilise developments/best practices on an ongoing voluntary basis, to address biodiversity and natural resources depletion, soil use, and water source/supply issues. Lead economy The United States	PPFS workshops: -A Three-Tiered Approach to Increasing Water Security in APEC (US) - PPFS Workstream Proposing a Three-Tiered Approach to Decreasing Agriculturally Generated Greenhouse Emissions in APEC (US) -ATCWG Virtual Workshop: Tackling Climate Change Challenges with Agricultural Innovation (US)			

	2022	2023	2024	2025
17b) Support in improving inventories of greenhouse gas emissions from the food system Lead economy: New Zealand	NZ: APEC-GRA Joint Workshop on Enhancing Agricultural GHG Inventory Methodology			
17c) Share best practice on encouraging responsible investment into environmentally friendly, nature positive and sustainable food production, processing and distribution. Lead economy: Peru	PPFS Webinar on “Sharing good practices on Sustainable Agricultural Development through the Principle of Sufficiency Economy Philosophy” (THA)			
17d) identify and promote approaches that would support good environmental outcomes while also avoiding and/or minimising market distortion, including by drawing on work from relevant international organization. Lead economy: The United States	A Three-Tiered Approach to Increasing Water Security in APEC (US) PPFS Workstream Proposing a Three-Tiered Approach to Decreasing Agriculturally Generated Greenhouse Emissions in APEC			
17e) Provide capacity building and best practice sharing workshops to support member economies' individual and collective efforts to align with the UN Sustainable Development Goals 12.3. Lead economy: Chinese Taipei	ATC 01 2021S: Publish a Project Report on Sustainable Materials Management of Food in the APEC Region: A Review of Public Policies That Support Reducing Food Loss and Waste (US)	Conduct a survey on reducing food loss and waste to strengthen the resilience of APEC food system (CT) APEC Workshop in reducing food loss and	Review of progress on public-private investment in infrastructure and cold chains to reduce food loss waste (TBC) APEC Best Practices Sharing Workshop to	Review of progress on measurement and data collection on food loss and waste reduction (TBC) APEC Capacity Building Seminar to enhance measurement and data

	2022	2023	2024	2025
	ATC 02 2022S: APEC Workshop on Farmer/Producer Perspectives of Food Waste Reduction (US)	waste by enhancing digitalization and innovative technologies (CT)	support and harmonize reducing food loss and waste activities (TBC)	collection that produce evidence regarding food loss and waste (TBC)
Public Private Partnerships				
18a) Promote regular dialogue between public and private sectors within each economy to advise PPFS on how to enhance the business environment for the food sector Lead economy: Japan				
18b) Review the functioning and terms of reference of the PPFS Lead economy: The United States				
SMART Goals and Food Security Roadmap Towards 2030 Implementation				
19 a) Hold workshops by early 2022 to facilitate the transition from Roadmap 2030 to the implementation plan. Lead economy: Thailand and the United States	PPFS 01 2022S: PPFS Webinar on “sharing best practices and proposed actions for the Implementation Plan of Food Security Roadmap Towards 2030” (THA)			
19 b) develop an implementation plan which identifies specific voluntary actions				

	2022	2023	2024	2025
or initiatives member economies may enact to deliver on Roadmap 2030. Lead economy Thailand				
19c) c) Perform review of actions in 2025 (and progress) and a review of the roadmap in 2030 Lead economy: -
